

Buy-It-Now Instructions for Sellers

All Sellers

Please check with the auction desk.

We need up-to-date registration information.

- You **cannot** use copies of Sales Cards that you may have made yourself! Each authentic Sales Card has a unique number, so copies of Sales Cards will cause your items to be removed from the Buy-It-Now table.
- The **Seller #** on the bid card is your **Convention Registration #**, which is on your name tag.
- Once you fill in the **Description** and **Price**, do not alter them without getting permission from the auction administrator. After change, the administrator will initial it. If you do not get permission, the item may be withdrawn from the Buy-It-Now table without notice.
- Be sure to attach your Sales Card securely (Paper clip, Rubber Band, Scotch Tape, Masking Tape, etc.) to the item. There will be a lot of activity in the Buy-It-Now area. It will be easy for Sales Cards to get misplaced.
- Do not remove items from the auction without consulting with an auction administrator.
- Auction administration reserves the right to move items anywhere at any time.
- Auction administration reserves the right to withdraw any items from the Buy-It-Now tables.
- A 15 percent (15%) premium is charged to the seller by the auction organization.
- Sales Tax of six percent (6%) will also be added to all items sold.
- Your settlement will take place starting on Sunday Morning.
